

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application.

LISTING OF CLAIMS:

Claim 1 (currently amended) A paper for ink jet and electrophotographic recording which comprises a support having a cationic resin present on a ~~[[side]]~~ surface of the support ~~on which ink jet recording or electrophotographic recording is to be carried out~~, the cationic resin adhered thereto in a dry adhering amount of 0.5-2.0 g/m² and which has a surface resistivity of $1.0 \times 10^9 - 9.9 \times 10^{13} \Omega$ ~~for the recording side of the paper~~, wherein the cationic resin has a cation equivalent of 3-8 meq/g as measured by colloidal titration method.

Claim 2 (canceled).

Claim 3 (original) A paper for ink jet and electrophotographic recording according to claim 1, wherein the support has a neutral rosin sizing agent or an alkenyl succinic anhydride as an internal sizing agent.

Claim 4 (original) A paper for ink jet and electrophotographic recording according to claim 1, wherein the support contains a waste paper pulp.

Claim 5 (currently amended) A paper for ink jet and electrophotographic recording according to claim 1, wherein the surface resistivity is $1.0 \times 10^{10} - 9.9 \times [10^{11}]$ $10^{13} \Omega$ ~~for the recording side of the paper.~~

Claim 6 (new) A paper for ink jet and electrophotographic recording according to claim 1, wherein the paper for ink jet and electrophotographic recording is made of plain paper, and the support is a paper.

Claim 7 (new) A paper for ink jet and electrophotographic recording according to claim 1, wherein the cationic resin is present on surfaces of both sides of the support.
